About our team

We care. That's why we've invested heavily in building a people-first team and product features that support employee engagement and enrollment. We care about our clients and their employees, and we care about the outcome of our efforts.

We simplify. We take complicated regulations and the confusing world of health insurance and distill it all into one user-friendly platform with hands-on support and an in-house compliance team.

We lead. Our ICHRA platform was first to market. We even contributed to the regulatory rules that ICHRA was built on. We are the industry's go-to resource for ICHRA. Our CEO is Chairman of the Board of the HRA Council.
